PE and School Sport Premium

The government in England is providing additional and substantial, ring-fenced funding to provide support to primary PE and school sport. This funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to primary school to spend on improving the quality of physical education and sport for all their children.

Vision - Government

All pupils leaving primary school physically literate and with the knowledge, skills and motivation necessary to equip them for a healthy lifestyle and lifelong participation in physical activity and sport.

Vision – School

To provide a fun, educational PE curriculum through regular physical activity. Children should also have the opportunities to experience a variety of sports, extra-curricular activities and clubs to increase their participation in both extra-curricular clubs and competitions. PE and Sport should be enjoyable, challenging and increase children's self-esteem, understanding and skill.

Key outcome indicators

1. The engagement of all pupils in regular physical activity – kick-starting healthy active lifestyles
2. The profile of PE and sport being raised across the school as a tool for whole school improvement
3. Increased confidence, knowledge and skills of all staff in teaching PE and sport
4. Broader experience of a range of sports and activities offered to all pupils
5. Increased participation in competitive sport
6. Increased confidence and competence when making choices to travel

Review of PE and School Sport Premium expenditure 2017/2018

Key priorities to date	Key achievements / What worked well <i>What evidence is there of impact on your objectives</i>	Key Learning / What will change next year <i>Does this impact reflect value for money in terms of the budget allocated</i>
Increase Participation in Extra-Curricular Clubs	Participation maintained with 40-50% of children taking up an extra-curricular club.	Budget spent on resources and equipment to cater for these clubs. Real value for money in terms of the numbers we now have attending against the cost.
Increase in Self-esteem and aspirations towards physical activity	Increased numbers at extra-curricular clubs and competitive sport for Level 2 games is increasing in popularity. Children enjoyment is increasing and children want to compete as well as this.	Costs for transport and equipment out of the budget to increase children's knowledge, engagement and skill in a variety of sports. Wide range of sports provided and this will be increased next year.
Upskilling teachers to provide high quality PE lessons for the children.	Increase in engagements within the lessons due to the introduction of Real PE. Staff training CPD completed to upskill teachers in this.	PE Co-ordinator currently trained and going through a 3 day Real PE course. PE Co-ordinator to monitor what sports are being taught to increase the coverage.
